She took off, running down that shady road  
She led me to that place where the sweet blossom  
grows  
She held my hand and now I understand  
Why it came this way

And I took off, running with nowhere on my mind  
And I never thought of what I'd left behind  
Sitting by the phone, all alone  
Why'd I come this way?

I've got to find my way back  
To where that sweet blossom grows  
Until I find my way back  
To where that sweet blossom grows  
Back to where that sweet blossom grows

Stars shining over me came crashing down again  
World watching over me came crashing down again  
Sweet blossom flower in my darkest hour  
Help me find my way  
I've got to find my way back  
To where the sweet blossom grows  
Until I find my way back  
To where that sweet blossom grows  
Back to where that sweet blossom grows

We took off, running down that shady road  
We made it to that place where the sweet blossom  
grows  
If you take the time, then you will find  
I'm right behind you

I've got to find my way back  
To where that sweet blossom grows  
Until I find my way back  
To where that sweet blossom grows  
Back to where that sweet blossom grows

I've got to find my way back  
To where that sweet blossom grows  
Until I find my way back

To where that sweet blossom grows  
Back to where that sweet blossom grows  
Back to where that sweet blossom grows
