### "Cyberwar"

Animated, sequantised and computerized  
Through a blinding winds of avidity  
Synthetised, robotized and dehumanized  
Hybriding flesh with technology

Relapse of a lecherous humanity  
Contemptuous cupidity  
Rigor sustains charity  
Mass degradation almost completed

Eulogized, neurologised...ascetised  
A world emaciated by malevolence  
Materialised, idealised...monopolised  
Violate greed and senses

Unto the surviving humanity  
...the final epitaph  
Caustic depression of avidity  
The cyberwar is coming  
Countdown to imminent annihilation  
Effluvium of cupidity  
Dreary hopes of emptiness  
Cyberwar is the answer
