"Psycho-Waves"

Realm of mental connections
Psychics sense open horizons
Psychological emanation

Soul traveling...Mind warping
Thought releasing...Psycho-Waves

Pondering my dementia

Talking about criticism and technical perfection
Nothing compares to neurotical activities
Sensorial compilation and thought interactions
Bring me virtual emotional perturbances

Things seem to change, but turn out to be the same
Like an enigmatic stone, drawing circles in a pond

Eternal? Immortal?

Atmospheric holocaust
Denigrating paradox
Dimension of self entity
Welcome paranoia in deity

Realm of mental connections
Psychic senses open horizons
Psychological emanation

Soul traveling...Mind warping
Thought releasing...Psycho-Waves
