Quantum physicists
Works on theories
Time translocation
Destroying eons
Past, present, future
Era's coincide
Technological advances
Now our demise

The unbridled rage of (in)human nature Will ring out for all eternity
The sheer audacity of this crime
Will ring out for all eternity

KNOWLEDGE- A quest that plunges us deeper POWER- The unquenched thirst that's never satisfied PARADOX- Absurdity, a two-headed scape goat DEVASTATE- Annihilation of wich no one shall know the out come

A silent whisper tells the story
A desolate landscape stands remorseless
Take a step forward, then take two back
Another brillant victory in the name of
Technology
Pandora's box has been unleashed
The spilt second decline of man (un)kind
Mass genocide of the time/space continuum
Extreme consequences of our paradise lost
