Striving... Memories. Striving... Memories.

Aplysia's sensory neurons, alter response level to a given stimulus based on
Action transpired.
Protein synthesis; Involved in learning.
The strengthening, weakening of synaptic connection;
The cellular basic of
Memory.

All thoughts and feeling; Euphoric or bizarre.
Results of endless interactions of neuro-chemicals.
Altered perception, re-altered beliefs, affects the mind, the thought
Process.
Endless emotions, infinite dreams.

Endless emotions, infinite dreams.
Affects the mind, the thoughts patterns.
