Betrayer.. it seema you didn't get enough of my  
generosity

Denial.. refuse to admit the moment of abuse you took  
upon me

Resign... the facts about your actions that

Defy... the limit of diplomacy

Gain the attention to derive everything from the truth,  
to advantage

Hypocrit method of dellusion. Mediocre diversion

Seek to appropriate, whatever advantage needed

Twisted way of accusing the other. To avoid being  
suspected and judged

By accusing the other with twisted ways

You avoid being suspected and judged

Gain the attention, to pacify those you mislead and  
manipulated
