Crush the aenima.  
Allogen to this consistence.  
Psychedelic sensations.  
An utopic elevation.

Divided thoughts.

Ultimate power of dependence.  
Irrational affliction sprinkled of hindrance.  
Impious advancement to obtain reality,  
Deviated destiny.  
Annihilation of sensibility.  
Inner-mind is so smothered.

Intra-cellular infiltration; intense illusive ecstasy.  
Beauties of promises to come: Exhibition.

Isolated and confused: Intolerance.  
A blind follower with only instincts to poison himself.  
Impulsive impunity of the amputated body.

...Absorption...

Allogen consistence; substancial existence.  
The nutriments of an utopic elevation.
