Visit "[Battle For Fire](#)" on [MotoLyrics.com](#)

Ancient times, long time ago  
The battle for fire began  
The struggle for a treasure  
That gods had given to humanity

The beginning, a new era  
To awake, to conquer the land  
The lack of wisdom  
Condemned them to eternal war

The fire a dream, has been a nightmare  
The way to power  
Beginning human extinction

Fighting for a precious secret  
Fighting for survival

A precious secret to last forever  
The key to survival  
And to rule over the others  
Survive, kill, attack, to conquer the land...

Battle for fire - battle for fire  
Battle - fire!

The battle for a sacred secret  
Punishment... burn in fire

A precious secret to last forever  
The key to survival  
To rule over the others
