Music is a path full of thorns  
It is to be at war  
Fighting everyday  
Without fearing the future

Some were left in the way  
And changed their convictions  
You had to be strong  
And take the damn risk

I did not want to be a lawyer  
Laws are relative  
I did not want to be a business man  
Money is ephemeral

I wanted to be a musician  
Music is perpetual  
And my pocket is empty  
But I am fucking proud

You don't know what pain is  
To suffer all these years  
Opposing forces trying to crush  
Surviving in a lost society

Not loved, only pain  
No respect, no esteem  
A brave warrior in a heartless world  
Unwinding the human thoughts  
A brave warrior in a heartless world  
Fighting for whoever thinks the same
