Grab the dim around the throat
Can ya take it
Pinched and pissed defy your way
Don't ya love it
Yeah just like they did

We're not a lot of the same
Better to be pissed than to blame
We're not a lot of the same

Groomed and favorable is that
What your taking
Oozed and leaking out of the cracks
They are making
Yeah just like they did

We're not a lot of the same
Better to be pissed than to blame
We're not a lot of the same

If it's so redundant
Why can't ya pull yourself away from it
If this part reminds you
Why can't ya pull yourself away from it
If this does not make it
Why can't you pull yourself away from it
If it's all a lot of the same
