Don't ask how don't ask when or why Same somehow
pleased just to be a part When
You've found answers don't mean a thing Actions
shouting so much louder man Is
This something real I can't say But it's got control of me
There's no need to
Go frolicking through the written All around same right
side up as down Ya see
I can feel it cracking False sense of insecurity Let
yourself love let yourself
Follow the way When you've found answers don't mean
a thing Actions shouting so
Much louder man Is this something real I can't say but
it's got control of me
