I see your sexuality pour from your fountain  
Wade through your oceans head high  
Explore your wilderness and all of your mountains  
Ing from your vines and let your mink wrap all around  
me  
And I can feel all your storms inside me now  
Wind laden lover your wind blows through my head  
All through my window she sees what I'm becoming  
A helpless human submarine  
Anna sail your vertical sea  
Wanna ride your longing  
Wanna travel down and let your mink wrap all around  
me  
And I can feel all your storms inside me now  
Wind laden lover your wind blows through my head.
