Kind of feeling like a wide open window
Closets always open cause I never know
Just who may wanna see right through me--
transparency
Had a grip but I felt like I was slipping
Street level concrete kissing
Took a lot away from
Those days-those dayz-these dayz

Kind of wanna feel exactly what it looks like
Up upon the platform of the other side
Got myself a sequence I believe in--high frequency
If I get there then I know I must belong there
Star shooting legendary put a lot of time in those days

Those dayz were fine
These dayz are better

Kind of say, I kind of say just want I want to
But I mean exactly what I say to you
Would you rather it be some other way?
Oh yes they say
I can't believe, I said I cannot believe it man
Buttoned lips are in demand now
Sucking through the straw of these days

Those dayz were fine
These dayz are better

Kind of wanna put it all up in a freeze frame
Cut and past the life I tasted
But it seems you know it seems like it was wasted
Carried out to see
In the future I see mutual blessings
Situations life's caressing
Put a lot of time in these days

Those dayz were fine
These dayz are better
