"Victory Song"

Visit "[Victory Song](#)" on MotoLyrics.com

Tonight where i stand (i stand)
Apart from the plan (the plan)
And my soul cries out (cries out)
To let me know how

To let me know, to let me know
To let me know, to let me know
To let me know, to let me know

I'm complete in you (in you)
Victory shines through (shines through)
The old man cast out (cast out)
I sought and i found

You let me know, you let me know
You let me know, you let me know
You let me know, you let me know

I never thought that i, would ever touch the sky
I never thought that i, would touch the sky tonight
I never thought that i, would ever touch the sky
I never thought that i, would touch the sky tonight
