Something divides me  
Cold as an ice touch  
Gold as a sunshine  
Something unites me  
Something offensive  
Ruins my patience  
Something unstable  
Frightening me so much  
Under the pressure  
Nothing bad happens  
Something uncertain  
Tries to exploit me  
Alien wishes

Come closer and closer  
Alien heart beats  
Alien brain works  
Who turns the clouds back?  
I see them burning  
Give me some more space  
Make it less painful  
Time-round circles  
Turn into flowers  
Give me some more love  
When I melt down
