I am blind now, i can't see, in front of me  
Calm is confusion, no lasting peace, despite my need

For far to long now  
I've turned away, scared to see your face  
With ignorance as my guide, and pride  
Helps to push this thorn deeper into my side  
Into my side

When it's over  
I know where i need to go, and why i need to go with  
you  
When it's over  
Will i meet you then or fall away  
And never sleep inside the arms of peace  
Again, again

Can you help me, make me whole, make me know  
Arms outstretched now, to embrace, the whole world

For far to long now  
I've turned away, scared to see your face  
With ignorance as my guide, and pride  
Helps to push this thorn deeper into my side  
Into my side

When it's over  
I know where i need to go, and why i need to go with  
you  
When it's over  
Will i meet you then or fall away  
And never sleep inside the arms of peace  
Again, again, again, again

Into my side

When it's over  
I know where i need to go, and why i need to go with  
you  
When it's over  
Will i meet you then or fall away

And never sleep inside the arms of peace  
Again, again
