You're lost in time
With me tonight
Again i see your face
The light once more
You said i am always there
But you, you done that before i swear

So far from home, is where i go
Is where i go tonight
So far from home, is where i go
Is where i go tonight

My life always on the rocks
You see i'm blind
Help me find the truth
Help me find myself
Find my life tonight
Cause you, you've done that before
Am i right?

So far from home, is where i go
Is where i go tonight
So far from home, is where i go
Is where i go tonight
