Blackout - C-Rayz Walz ft. The Angel & The Preacher

Triple Bypass, Put it on my tab america

We're Black And We Wanna Be White (x3)
All Night, All Right, All High

We're Black And We Wanna Be White (x3)
All Night, All Right, All High

I'm black wanna Be white, For the first time in my life i
wanna be right.

I know this is wrong, i didn't accuse, they frisk me at
night.

I know what it is, hand me the light, If I was marco I'd
be invisible to pig's sight

I'm black wanna be white, well dressed, speakin' polite,
Self stressed, livin' a lie, well i guess...it's the life.

All the dudes i payed, I wanna be DUDE in the shade,
rockin' hard like i was raised in the rays...RAYZ

Got the vocab, that made most mad, when i spoke like
brad, is it bad?, i think, drink, joke, and smoke like that.

Keekin' trees, 3 back seats, and all corners, raised by
murders and mourners...Ye

I'm gunna be the shit at the meeting statistically
speaking.

Playing god for the wicked, with Ralph Lauren,
Christopher, and Keenan.

When the Ike be weighin's, the scales brake, you can
deny me payment,

Well alright, i'm all white...I'll finnaly make it.

We're White But We Wanna Be Black (x3)
Fight Back, Like This, Like That

We're White But We Wanna Be Black (x3)
Fight Back, Like This, Like That

White wanna black, the darken attached, just hauntin
these gats,

Drunk...start to laugh.

My complex is like caught like caught in my dad,

I respect you you started the fad, i got no problems wit that.

But.

How would you feel if you lived in the village, and were told all you ancestors did was steal, kill, and pillage.

I'm no, niether my past, one grown of the gods, anonymous tags.

Birgen bestowed, I wanna escape, I don't have it made 'cause of my skin, it's just not the case.

Family don't understand artistic views, Feel like DAMMIT, why i have to live with fools.

I did me, fuck what i did in school, to live free, feels like forbidden fruit.

I'm shacked, need my gene pool, but it's all scattered Call devil 'cause yall need food, It don't matter.

We're Black And We Wanna Be White (x3)

All Night, All Right, All High

We're White But We Wanna Be Black (x3)

Fight Back, Like This, Like That

If you black, wit a degree, and you work, and got a happy family, they say you wanna be WHITE.

If you white, with dressed, smoke weed, listen to rap, and live free, they say you wanna be BLACK.

There's nothing in between, so there medium means, You double excel on smallville, and dinner is beans.

There's two classes, the rich and the poor, everybody else, RUN WILD IN THE HALLS.

I envy long standin' traditions, tensions starts for what you do to me for dissin',

The past is done, and was never my ambition, and now I owe grant for that same can for pissin,

'cause some of my people, poverty stricin',

Sleepin in the same spot, that they probably shit in.

Kill you, Kill You, In Alaska for some gold, Still view, as master of the glow.

We're Black And We Wanna Be White (x3)

All Night, All Right, All High
