"Take Me To Heaven"

On and on, another dimension.
Choose me up, no protection
Understand, yeah, free your mind
Can't get you out, get you out of my mind
Keep it going, never gonna stop
Dream is fine, dream is hot
Heaven is the place we are gonna be
Dream a dream, come follow me

Take me to heaven. I just wanna give you love
I just gotta give you all my love
So keep me in heaven. Baby take me by the hand
Like an angel walking by my side
Just bring me to heaven. I just wanna give you love
I just gotta give you all my love
So keep me in heaven. Baby take me by the hand
Like an angel by my side

O-o-o-o it must be heaven now
O-o-o-o this heaven now
O-o-o-o the heaven must be there
O-o-o-o it must be heaven now
