"Never Let You Down"

im trying to keep my feet on the ground
im getting to like this feeling ive found
im getting to love the thought of having you around
and i will never let you down

my friends were all no meaning ..?
when they said no one is good enough for you
play with your emotion dismiss the notion
do what you have to do

cause people dont take chances with their hearts
since i met you i am past the hardest part
so remember one thing
i will never let you down

im trying to keep my feet on the ground
im getting to like this feeling ive found
im getting to love the thought of having you around
and i will never let you down

sometimes you feel defeated
but its ok, youre not the only one
you know the complications
bad situations happen to everyone

it doesnt matter how it ended or began
sometimes the best that you can do is change your
plans
hope you understand
that i will never let you down

im trying to keep my feet on the ground
im getting to like this feeling ive found
im getting to love the thought of having you around
and i will never let you down (x3)

i will never let you down (x4)
