Tonight I'll cry myself to sleep for the first time,  
In a long time,  
I wonder what i can do to capture this feeling, its  
Fleeting, my hearts not beating  
I can't believe i told you my problems, we've all got em  
Its time to say good night  
(tonight I'll cry myself to sleep for the first time in a  
long time)  
Of choking, were broken, your choking on me  
Start my heart 'cause all i need is one kiss, I'll save  
this, you can't fake this  
This making out can make out to be dangerous, if it  
Pains us, this will change us
