We're Orange Crush and we're rocking the set
We will win that should be no bet
We're just getting up on our feet
And we will not be beat

We're Orange Crush and we're rocking the set
Soon we will have our own private jet

When we get famous we'll move to L.A
But right now, it's all good in Hershey PA.

We're Orange Crush and we're rocking the set
All we need is an Orange Cush pet
We hope to be on TRL
What's our secret?
(We'll never tell)
