I'm just a robot
I have no fears
I lack emotion
And I she'd no tears

And I'm just a coma
A deadly sleep
My heart is breakin'
But I just can't weep

So babe I want you to cry,
And I want you to cry for me,
I don't want you to lie to me,
And say that it will be alright,
And I want you to say goodbye,
But I want you to mean it,
And I want you to find a man,
Who's gonna treat you right

Cause I'm just a virus
Inside you head
You lay awake in your hospital bed
And I ain't no docter
But I know your sick
Your sick of the bullshit and state I'm in

That's why I want you to cry,
And I want you to cry for me,
I don't want you to lie to me,
And say that it will be alright,
And I want you to say goodbye,
But I want you to mean it,
And I want you to find a man,
Who's gonna treat you right
