I got the concept and came to the conclusion
That the top floor was just an illusion
To the fact that I got this break in my back
That I can't get out, I can't figure out how
You appeared right in front of me before you
Marched down south a university
Is where you spend your daylight
But we're both just waitin' for this Friday night

Although the distance is daring,
We both know how to drive

Oh, we can't make up for the lost times
That we both apologized for
And I can't stand the fact that this extremity
Is the center of my day

I see where you're comin' from, we've been
On the same boat since day one
I see how you like to run
Back to the things that got you here, oh!

Although the distance is daring we both
Know how to drive

Oh, we can't make up for the lost times
That we both apologized for
And I can't stand the fact that this extremity
Is the center of my day
You're the center of my day

Mondays, I sleep away
Tuesdays, I lay awake
Wednesdays, are the worst
Oh Thursdays, I reminisce
Fridays, I see your face
And I can breathe.

Although the distance is daring, I sure know what it's
like to be alone.
