I am I
You are you
We are we
We could live in such harmony

Can't you see
Apathy
Lies between
We could live in such harmony
I am praying for the day
When you and I and he and she are we
When you and I and he and she are we
We start a war
But what's it for
We fight for peace
Peace will find us with harmony

Trade your guns
Fire with doves
Fight for love
Peace will find us with harmony
I am praying for the day
When you and I and he and she are we
When you and I and he and she are we
One for all
All for one
We for we
We could sing in such harmony

I work for you
You work for me
We work for free
We could sing in such harmony
I am praying for the day
When you and I and he and she are we
When you and I and he and she are we
Humanity will sing harmony
