

## **Nevershoutnever! "The Day That Music Died"**

Visit "[The Day That Music Died](#)" on [MotoLyrics.com](https://MotoLyrics.com)

The day that music died was an awful day  
The children started working instead of play  
Our poets read from scripts to earn their pay  
I tell them exit stage left aint got shit to say  
Cause music brings us life when we are dead  
An honest melody to break the trend  
And music brings us hope for future peace  
Humanity will sing in harmony  
I pray for that day

The day that music died was an awful day  
The critics and the skeptics had all the say  
This money hungry industry must back away  
Set the music free or watch it fade away  
Cause music brings us life when we are dead  
An honest melody to break the trend  
And music brings us hope for future peace  
Humanity will sing in harmony  
I pray for that day
