A year has past still on the ground  
Been to nowhere and all around  
We've had our ups and sometimes downs

Here we go! Can you hear us?  
Been waiting for this way too long  
This is life this is real

Addicted to the energy  
Surrounding us tonight  
It's time for us to pay  
Our souls are up for sale

Counting sidelines on our way  
City lights they never fade  
We grow up but never old

Another year of apathy  
It's all starting again  
We're back where we belong  
And we keep moving on  
We keep moving on  
We keep moving on  
We keep moving on

Here we go! Can you hear us?  
Been waiting for this way too long  
This is life this is real
