Heading south once again  
Retracing footsteps made by friends  
Another round of hopes and dreams  
Missing out on could-have-beens  
I rather go my own way  
Why travel all along the highway  
If I could live my life again  
I know I wouldn't change a thing

It's alright I'll be fine  
It's alright

Thank you we're having the time of our lives  
We're nothing without you  
We stand by your side  
For my past mistakes I apologize  
When I come home  
I make things right  
We're having the time of our lives

With a blink of an eye  
I'll be gone, out of sight  
Another planet, different time  
Closing the borders to our lives  
To all my friends I'm sorry  
Mum and Dad you shouldn't worry  
I'm out here on my own  
But I will never be alone

It's alright, I'll be fine  
It's alright

Thank you we're having the time of our lives  
We're nothing without you  
We stand by your side  
For my past mistakes I apologize  
When I come home  
I make things right  
We're having the time of our lives

All those thoughts in my head keep

spinning around  
I'm sorry for the times when I'm never around  
I'm sorry, I'm sorry

It will all be alright  
You're the heroes tonight

Thank you we're having the time of our lives  
We're nothing without you  
We stand by your side  
For my past mistakes I apologize  
When I come home  
I make things right  
We're having the time of our lives

It will all be alright  
You're the heroes tonight
