You keep your distance.
Like, for instance, when you told me we should take it
slow.
It's been forever. It's now or never
And it might be time to let this go.
I know that I - I've gotta get away 'cause I've had
enough!

Time, you always needed more time.
But all we've ever had is time.
So now this is the last time, but I'll be fine.

Not that I'm caring
But it's apparent that you're not what you pretend to be.
I thought I knew you.
I'm seeing through you, and you never saw yourself
with me.
I know that I - I've gotta get away 'cause I've had
enough!

Time, you always needed more time.
But all we've ever had is time.
So now this is the last time, but I'll be fine.

I've gotta let this go.
It's holding me down.
It's holding me down!
I've gotta let this go!
I know that I - I've gotta get away 'cause I've had
enough.
I know that I - I've gotta get away.

Time, you always needed more time.
But all we've ever had is time.
So now this is the last time, but I'll be fine.
