

## **New Amsterdams "A Small Crusade"**

Stand at attention  
Leading a listless life  
No open redemption by the riverside what you saw was  
salvation on the go

Free who you were before  
Find what you're looking for  
Lose everything but you do it again

You're always a pilgrim leading a small crusade to find  
the essential

not a missionary or a guide  
the past is part of this to cast aside

To free who you were before  
Find what you're looking for  
Lose everything but you do it again

Secret concealed in the wheat fields  
There's a mystery to this history
