Come on little boy, your crowd is waiting for you on top
of the world

You've been contemplating how to disagree with
possibilities of who you choose to be
but you can't see what is real

So if you try to find your way home again
you'll be alone again and find your way out

Come on little girl, your family's stumbling on top of the
world

You've been contemplating how to disagree with
possibilities of who you choose to be
but you can't see what is real

It's not worth your time
