# **"Being Broke And Broken Down"**

Visit "[Being Broke And Broken Down](#)" on MotoLyrics.com

So you think that we've got problems  
Take a look around it's not just us  
People step on each other to get ahead  
And work for wages that can not keep us fed

I want to make a change, Call it self revolution  
Got to live my life my way,  
With a little less confusion  
I won't give in, I won't give in  
Gonna wake up and start today

Do we never see life the right way?  
Unhappy we try to self medicate  
All the things we do to feel okay  
Instead of picking it up we throw it all away

What you need, I don't know  
What they tell me is now  
It's over and over and over
