Accept It  
There's something wrong  
Pathetic  
That value is defined by what we have  
Not how hard we will try  
Do we slave for material gain?  
Are our morals pacified?  
It's fucked up

Kept us down  
We've got the credit cards to do that  
What's the deal?  
People are more important than things  
Spun Around  
Convince us well be happy with that  
Take Action

Don't buy it! Don't buy in! Don't buy it! Don't buy in!

Expect it  
There's something wrong  
Resentment  
Due to the debt we create

For things we don't need  
But are convinced that we want  
With our neighbors we compete  
It's fucked up

Ads can be so clever  
Bigger is not better  
There's something wrong
