"Goodbye Middle Class, Hello Working Poor"

Visit "[Goodbye Middle Class, Hello Working Poor](#)" on MotoLyrics.com

Hand to mouth now this is the situation
Just a paycheck away from mass annihilation
We are not just afraid
We keep working and we keep trying

This corruption has us fixed
The harder we work the poorer we will get
Disconnected, disengaged
Only the upper and lower class remain

No or never, stand together, we can fight!

Leaders tell us we never had it better
Lack of health care and the credit that we owe forever
We are not just afraid
We keep working and we keep trying

No or never, and we'll stand together, and we'll fight
this!
