This Is More

(About Last Night EP)

This is all I remember
One night's dating back through December

Golden moon in your eyes
I'm under water
Such a surprise

This is more
Than desire
I feel all
Like I'm higher
Than before
This is more

You're on stage in a different town
And the press say that they want some more

You deserve the award
I'm under water
Such a surprise

This is more
Than desire
I feel all
Like I'm higher
Than before
This is more

This is more
Than desire
I feel all
Like I'm higher
Than before
This is more
