I confess to have a
Willingness and wanting for you.
To have you here by me, here by me
And all my life through

You run around.
You run around.
Run around baby.
Run around baby.
Someday maybe... we'll have a love.
Someday you say you'll
Someday you may... be my girl.
Hand in hand we walk
Though the land we walk... around the world.
But right now...
But right now...
You run around.
You run around.
Run around baby.
Run around baby.
Someday maybe... we'll have a love.
You'll be with me
'til eternity... and be mine.
Sent from above, will
Be my love 'til... the end of time.
But right now...
But right now...
You run around.
You run around.
Run around baby.
Run around baby.
Someday maybe... we'll have a love

I confess to have a
Willingness and wanting for you.
To have you here by me, here by me
And all my life through
