I want you to know
That your love will always be
The most precious thing to me
That I own

If you ever leave
It would hurt inside I know
But this feeling still would grow
In my heart

If you think that we can't make it
Don't you be afraid to say it
Things would just get worse
To let it ride
If you lie
(Repeat)

I want you to know
That your love will always be
The most precious thing to me
That I own
Mmm, that I own
