I went out last night
That's when I met a sexy girl
She was looking so right
She said, "I wanna take you
For a trip around the world"

And by the look in her eyes, oh, oh
The girl was serious
She wore no disguise, oh, no
So let's have some fun, yeah

(I thought it was me)
I thought it was me
Who makes that girl this way
(I thought it was me)
I came to find out she's
Like that every day

(I thought it was me)
I thought it was me
That makes that girl so wild
(I thought it was me)
I found out she's like that
With all the guys

Yo, I love being a bachelor
Ricky said, "Yo, that girl's
A good catch for you"
She and I choose to
Cruise in my love boat
My water bed kept us afloat

I had to prove my manhood
Show her that the B I V
Was damn good, understood
I never had my boat rocked
Like that before, yo

Well when we left the spot
All systems ready to go
She said, "Sit back and relax
I'm running the show"

I couldn't hesitate
It was much too late
That girl had got me straight
And I was ready to go, yeah

B B D
(B.B.D.)
B B D
(B.B.D.)

Yo, Ron, what's up
With that fly girl
You left the jam with?
She was sticking closer to you
Than the bread on the
Meat of my sandwich

I know you rocked the bitch 'cuz
Nah, it wasn't even like that
She left the room
To get comfy and cozy
Then the R to the O
To the N, got nosey

Cruising guys were
Her favorite past time
Taking chances almost
All her lifetime
She said, "You only live once"

Staying loose
Made many heads turn
If you did her wrong
You just might get burned
So let's have some fun, yeah

(I thought it was me)
I thought it was me
Who makes that girl this way
(I thought it was me)
I came to find out she's
Like that every day

(I thought it was me)
I thought it was me
That makes that girl so wild
(I thought it was me)
I found out she's like that
With all the guys

(I thought it was me)
I thought it was me
Who makes that girl this way
(I thought it was me)
I came to find out she's
Like that every day

(I thought it was me)
I thought it was me
That makes that girl so wild
(I thought it was me)
I found out she's like that
With all the guys

(I thought it was me)
I thought it was me
Who makes that girl this way
(I thought it was me)
I came to find out she's
Like that every day

(I thought it was me)
I thought it was me
That makes that girl so wild
(I thought it was me)
I found out she's like that
With all the guys

I thought it was me
Who makes that girl this way
I came to find out she's
Like that every day

I thought it was me
That makes that girl so wild
I found out she's like that
With all the guys

I thought it was me, ho, yeah, yeah
I thought it was me, ooh
I thought it was me, ho, yeah, yeah
