April, (? )  
When you get that smile in your eye.  
Something inside  
Goes wild wild wild.

Sunshine  
Chase away my rainy days.  
Our summer leave  
Is here. please stay.

Chorus:  
I'll hold (hold) you in my arms next to me.  
You (you) are the one that set me free.  
You (you) put the fire in my heart.  
Delicious.  
I'll (hold) never ever ever let you go.  
You're (you) my taste of honey, girl.  
You (you) put the fire in my heart.  
Delicious.

Rainbow  
Let me know the storm has past.  
These memories  
Will last and last.  
Passion  
Curling through the core of the night.  
Where have you been  
All my life.

I'll hold (hold) you in my arms next to me.  
You (you) are the one that sets me free.  
You (you) put the fire in my heart.  
Delicious.  
I'll (hold) never ever ever let you go.  
You're (you) my taste of honey, girl.  
You (you) put the fire in my heart.  
Delicious.

We as one  
Here we lie.  
Holding hands  
Across the sky.

Please be mine. I'll never ever leave you.  
Please be mine.

I'll hold (hold) you in my arms next to me.  
You (you) are the one that sets me free.  
You (you) put the fire in my heart.  
Delicious.  
I'll (hold) never ever ever let you go.  
You're (you) my taste of honey, girl.  
You (you) put the fire in my heart.  
Delicious. (put the fire in my heart)

I'll hold (hold) you in my arms next to me.  
You (you) are the one that set me free.  
You (you) put the fire in my heart.  
Delicious. (put the fire in my heart)  
I'll (hold) never ever ever let you go.  
You're (you) my taste of honey, girl.  
You (you) put the fire in my heart.  
Delicious. (put the fire in my heart)

I'll hold (hold) you in my arms next to me.  
You (you) are the one that set me free.  
You (you) put the fire in my heart.  
Delicious. (you put the fire in my heart)  
I'll (hold) never ever ever let you go.  
You're (you) my taste of honey, girl.  
You (you) put the fire in my heart.  
Delicious.

Hold.  
You.  
You.  
Delicious.  
Hold.  
You.  
You.  
Delicious.  
Hold.  
You.  
You.  
Delicious.
