Yeah, tonight's your night, baby
Whatever you want, whatever you need, it's on me

Oh, how do you like your love served?
Tell me what you think you deserve
How do you like it?
How do you like it, how do you like it, baby?
How do you like your love served? Girl, just give me the
word
How do you like it?

Here I am for your pleasure, I just wanna make you
happy, girl
Baby, no no no pressure, satisfaction guaranteed oh
yeah
If you want full service, baby, pull up on me

I wanna caress you and maybe undress you, oh yeah
I'll do all of that and more, give you the love that you've
been waitin' for
I wanna fulfill you, oh, I swear that I'll thrill you, yeah
Give you all the love you need, may I take your order,
please?

How do you like your love served? Tell me what you
think you deserve
How do you like it? I wanna know how you like your love
served
How do you like your love served? Girl, just give me the
word
How do you like it? I wanna know, come on, just say the
word
Say the word

Oh, just tell me what you want, baby, I know I got the
things you need
I'm here to serve you, girl you can count on me
Oh, appetizers start at nine, main course starts at ten
When all of that is finished, girl the dessert begins

And that's when I caress you, maybe undress you
Give you all of that and more

Give you the love that you've been waiting for
I wanna fulfill you, fulfill you, fulfill you
Oh, I swear that I'll thrill you, yeah
Give you all the love you need, may I take your order,
please?

How do you like your love served? Tell me what you
think you deserve
How do you like it? Oh, yeah, yeah, I wanna know what
you like
What you want, what you need?
How do you like your love served? Girl, just give me the
word
How do you like it? Tell me everything that you want
Tell me everything that you need

I'll serve it on a silver platter, any way you want it don't
matter
I'll give it to you like you like it, girl, I wanna do it all
night
Give it to you like you need, baby, you don't have to
beg or plead
I wanna be there for you, girl, you know I adore you
Tell me how you like, tell me how you like it, baby
Tell me how you like, tell me how you like it, baby
Tell me how you like, tell me how you like it, baby

How do you like your love served? Tell me what you
think you deserve
How do you like it?
How do you like your love served? Girl, just give me the
word
How do you like it?
