I fell out of bed this morning, ohh, something was
buggin' me

I couldn't sleep 'cause I hadn't had any lovin'
So, I've got to solve this problem out, baby
And darling, I know what the remedy should be

At night, when I turn out the lights
I want someone to wrap my body tight
A lover to keep my body warm
I need a woman to wrap my body tight

As the day goes by
Thought weighs heavy on my mind
Only thing I think about
Is tonight the lights go out

Ooh, and I hope it's you tonight
But not just tonight
Every day and every night I want your love
Hold me, sweet, sweet love

So, I'm telling you my problems
Because I know you know exactly what I need, woo

At night and when I turn out the lights
I want someone to wrap my body tight
A lover to keep my body warm
I need a woman to wrap my body tight

At night, when I turn out the lights
I want someone to wrap my body tight
A lover to keep my body warm
I need a woman to wrap my body tight, ohh, ooh

Come on, come on and squeeze me, girl
Warp, a wrap my body
Warp, a wrap my body
Real tight, yeah

Girl, I have to solve this problem
And I know what the remedy should be
I need someone to hold me

I need a woman right here, right here next to me

At night, when I turn out the lights
I want someone to wrap my body tight
A lover to keep my body warm
I need a woman to wrap my body tight

At night, when I turn out the lights
I want someone to wrap my body tight
A lover to keep my body warm
I need a woman to wrap my body tight

At night, when I turn out the lights
I want someone to wrap my body tight
A lover to keep my body warm
I need a woman to wrap my body tight

Come on work me, hold me, love me
