You're hiding something, 'cause it's
burning through your eyes

I try to get it out, but all I hear from you are lies

[Pre-Chorus:]

And I can tell you're going through the motions

I figured you were acting out your part

Once again, we're playing off emotion

Which one of us will burn until the end?

[Chorus:]

Catalyst, you insist to pull me down

You contradict the fact that you still want me around

And it's all downhill from here

And it's all downhill from here

Your good intentions slowly turn to bitterness

Reoccurring episodes with each and every kiss

(Let's go!)

[Pre-Chorus]

[Chorus]

And I can't believe you pulled it off again

Or notice till it all sets in

You'll deny it 'til you're at your bitter
end

[Pre-Chorus]

[Chorus]

And you keep pulling me down!

(pulling me down)

(pulling me down)

You contradict the fact that you still want me around

And it's all downhill from here

And it's all downhill from here
