What a waste of regrets and side glances
I should have let it all end to not answer
Using your pain as your way to bring you closer

Oh to bring you closer

Your inviting words never her to cause a scene
I'm just a name till your breath not a feeling
I'm just a patient boy waiting on your mattress
Just a patient boy waiting in the back

Ohh I'm caught in the act
Before tonight lets do something
That we're gonna regret
Gonna regret

Ohh I'm caught in the act
Before tonight lets do something
That we'll never forget
Neve forget

What a waste of high hopes you leveled them out
I think I just might be in the thick of it
Using your body as your way to bring me closer
Come on and bring it closer

Ohh I'm caught in the act
Before tonight lets do something
That we're gonna regret
Gonna regret

Ohh I'm caught in the act
Before tonight lets do something
That we'll never forget
Neve forget

Your inviting curves never her to cause a scene
I'm just a name that you forgot now we're even
A patient boy waiting on your mattress
Just a patient boy waiting in the back

Ohh ohhh I'm caught in the act
Before tonight lets do something
That we'll never never forget
Lets do something that we'll never never forget
Lets do something that we'll never never forget

Ohh I'm caught in the act
Before tonight lets do something
That we're gonna regret
Gonna regret

Ohh I'm caught in the act
Before tonight I'm just a patient
Boy waiting in the back ohh

Caught in the act
Before tonight lets do something
That we're gonna regret gonna regret

Ohh ohhh I'm caught in the act
Before tonight lets do something
That we'll never forget never forget
