I woke up saturday morning
Didn't look in the mirror
I don't want to see my face today
Forgot everything that you told me
About needing space and how I
Keep getting in your way (uh oh)

How did I survive the down fall
Two wrongs don't make a right here at all (uh oh)
How did I survive the down fall
Don't you worry about that

You keep bring me down cause you know I let you
Drill it in my brain so I wont forget you
Hold you back when I don't deserve you
Wanting you more the more I know you

I could be falling to pieces
And you wouldnt notice if I was at your feet
If you needed constant attention
Or constant affection
You always looked further than me (uh oh)

How you took me as a fool, girl
But I knew it from the moment I knew her
Before you do me in like that can't
We lay on our backs and
Think about the times we had

Bring me down cause you know I let you
Drill it in my brain so I wont forget you
Hold you back when I don't deserve you
Wanting you more the more I know you

Bring me down cause you know I let you
Drill it in my brain so I wont forget you
Hold you back when I don't deserve you
Wanting you more the more I know you

Now I finally found you where
In the world have you been
I would never let something

I would regret come between us again

Nothing will come between us again
Nothing will come between us

You keep bring me down cause you know I let you
Drill it in my brain so I wont forget you
Hold you back when I don't deserve you
Wanting you more the more I know you

You keep bring me down cause you know I let you
Drill it in my brain so I wont forget you
Hold you back when I don't deserve you
Wanting you more the more I know you

Drill it in my brain
Drill it in my brain
Drill it in my brain so I wont forget you
(Drill it in my brain)
(Drill it in my brain)
Hold you back when I don't deserve you
Wanting you more the more I know you
