

New Found Glory "First Kiss"

Visit "[First Kiss](#)" on MotoLyrics.com

You're more than tongue tied this time
Well I can feel it in you lips
Nobody told me you were a sucker for a kiss
Music low
We're all alone
Being wrong never felt so right
Tell me about your first kiss
Tell me or have you already forgotten it
Tell me about your first kiss
What do I have to do to get through all of this?
I'm writing it down
I bet you thought this song was about you
You're more that just mad this time
You've got that look in your eye
Nobody told me you were a sucker for a kiss
Music low
We're all alone
Being wrong never felt so right
Tell me about your first kiss
Tell me or have you already forgotten it?
I'm writing it down
Just leave me here and tell me to my face what you
think about
Can we figure out
What happened to our happy ending anyway?
How you feel about
Leaving me here
With a lot more left to say
Music low
We're all alone
Being wrong never left so right
Tell me about your first kiss
Tell me or have you already forgotten it
Tell me about your first kiss
What do I have to do to get though all of this?
I'm writing it down
I bet you thought this song was about you
