Focus on me there is more to see  
But use discretion this ride isn't free  
I'll prove them wrong  
I'll prove them more wrong  
The more I sit here the more that I think

Every mistake I make from now on I'll turn around  
I'll make it, I'll make it right  
And every truth I fake  
I might hurt someone  
I'll make it, I'll make it more right

Pins and needles are up and down my spine  
I'll pull them out one by one  
I don't need it all  
Give it all away  
The more that I breathe it  
The more it seeps through  
It's a numbing feeling  
This is what I'll do

Every mistake I make from now on I'll turn around  
I'll make it, I'll make it right  
And every truth I fake I might hurt someone  
I'll make it I'll make it all right

Every mistake I make from now on I'll turn around  
I'll make it I'll make it right  
And every truth I fake  
I might hurt someone  
I'll make it  
I'll make it all right

I'll make it all right
