Lies, all I hear are lies  
Have you ever spoke a word of truth in your life?  
Misled, you've always been misled  
Always is taking advice from people who claim to be  
your friends

Oh I should have never laid eyes on you  
Now I'm tangled up what can I do  
What can I do, what can I  
What can I do

Try, now you need to try  
Try to never make the same mistakes in your life twice  
(Make the same mistakes in your life twice)  
Truth, all I want is truth  
Turning away is the last move I expect from, expect  
from you

Oh I should have never laid eyes on you  
Now I'm tangled up what can I do  
Oh I should have never laid eyes on you  
Now I'm tangled up what can I do  
What can I do

When you set the perfect trap  
What can I do  
What can I do  
What can I do now

(Lies all I hear are lies)

Oh I should have never laid eyes on you  
Now I'm tangled up what can I do  
Oh I should have never laid eyes on you  
Now I'm tangled up what can I do (what can I do)

What can I do  
What can I (what can I do)  
What can I do
