

New Found Glory "Who Am I"

Visit "[Who Am I](#)" on MotoLyrics.com

Don't say it'll stay this way forever

I'm afloat in the ocean trying not to sink
I'm a crack in the asphalt you walk by on the street
I'm a falling star you'll never see
The lash in your eye the I in team

So Who am I?

Don't say it'll stay this way forever
Don't say it'll stay this way forever

I'm the lesson you'll never learn
The sickness that was never your concern
I'm the big surprise at the end of the night
The bridge in the gap
The corner of your mind

So Who am I?

Don't say it'll stay this way forever
Don't say it'll stay this way forever
Don't say it'll stay this way forever
(you dont know, you dont dont, you never know)
Don't say it'll stay this way forever
(you dont know, you dont dont, you never know)

I'm holding on
Yes I am
Careful what I wish for
I am the knot in your stomach
The phlegm in your throat
The message saying you're not home

Don't say it'll stay this way forever
(you dont know, you dont dont, you never know)
Don't say it'll stay this way forever
(you dont know, you dont dont, you never know)

I'm afloat in the ocean trying not to sink
