This love is catching me by surprise  
Your eyes I looked in a million times  
A million times

Your heart it beats, to the beat of mine

We stop in time, cause the feeling is right  
It's feeling right

I feel it like the weight of the world is lifted  
Nothing that we can't overcome, we'll make it  
We'll make it out, out,  
Leaving it all just to go to the other side  
Held it together, tight grip  
Everything was falling apart, it might rip  
We'll make it out, way out  
Leaving it all just to go to the other side

This love is catching me by surprise  
Reach out to find, all the feelings inside of you  
The feelings you hold inside  
Your heart it beats, to the beat of mine  
On top of the world, it's a love that we can't describe  
We can't describe,

I feel it like the weight of the world is lifted  
Nothing that we can't overcome, we'll make it  
We'll make it out, out,  
Leaving it all just to go to the other side  
Held it together, tight grip  
Everything was falling apart, it might rip  
We'll make it out, way out  
Leaving it all just to go to the other side

Get your heart, we will be still knowing  
That's it's a start  
With the break of day, we'll go on searching  
For the parts that were lost  
And we hold each other through the darkest days  
Don't let our fire, burn away  
See across the seas chasing down our dreams

Like fireflies, we're feeling so high, high, high, high.
