Oh, baby
Don't matter for how long life goes on
I'll Still be loving you, girl
I know it's real
This love I feel
Baby, sure as the skies are blue
I'll be around
Won't let you down
Baby, no one else will do

Believe in me
Girl, I'll be your friend
Together till the end, girl
(Together till the end, girl)
Just reach for me
Girl, I'll be the one
A lover you can trust
I'll never give you up

[Chorus:]
Till forever's come and gone
Till the mountains tumble down
I'll still be loving you, girl
Till the stars fall from the sky
Till the seas all run dry
I'll still be loving you

When clouds appear

Now don't you fear
Baby, we're gonna weather the storm
I'll stand by you (stand by you)
We'll see it through
You'll be safe and warm

Don't be afraid (Don't be afraid)
Girl, all through the night (All through the night)
I'll be there by your side, girl
(Be there by your side, girl)
Every way, girl I'll understand
I'm gonna be your man
With everything I am

[Chorus]

Other lovers are giving up each day, yeah
But this love of ours is here to stay (yeah, girl)
I just wanna be with you, girl
(I just wanna be with you)
That's all I wanna do

[Chorus, adlib and fade]
